Definitions

CHIP Priority Area: Broad, health-related areas for CHIP work identified through the collaborative prioritization process and specified in the CHIP document.

Example: Parenting Support and Life Skills (CHIP p. 24-28)

CHIP Goal: Long-range statement of desired community health or wellbeing outcomes within a CHIP priority area. Determined collaboratively and specified in the CHIP document.

Example: Families have ample healthy and affordable food (CHIP p. 27)

CHIP Strategy: General approaches that will be utilized to achieve a goal. Determined collaboratively and specified in the CHIP document.

Example: Increase access to health foods for children and families (CHIP p. 27)

Organizational Objective: Short to intermediate outcome statements of desired organizational or collaborative activities. Determined by individual organizations. They should be Specific, Measurable, Achievable, Relevant, and Time-oriented (SMART).

Example: By June 2022 Oregon State University Family + Community Health faculty and staff will work with community partners to expand acceptance and utilization of Double Up food Bucks at 2 growers markets in Jackson and Josephine counties.

Objective Process Measure: Indicator(s) that quantify the achievement of an organizational objective. Determined by individual organizations.

Example: Number of new growers' markets accepting Double Up Food Bucks

Process Measure Target: Numerical "goal" for the objective process measure. Determined by individual organizations.

Example: 2

Action Step: Activity that needs to be completed to accomplish an organizational objective. Determined by individual organizations. Action steps should be detailed, specific, and arranged in chronological order.

Example: Identify growers' markets not currently accepting Double Up Bucks

Action Step Process Measure: Indicator(s) that quantify the achievement of an action step. Determined by individual organizations.

Example: Number of growers' markets identified
