

ALL IN FOR HEALTH: JACKSON & JOSEPHINE COUNTIES
CHIP ACTION PLAN

PRIORITY AREA: BEHAVIORAL HEALTH

Goal 1: Mitigate the effects of trauma					
Strategy 1.a: Provide education and promote community awareness around the effects of childhood trauma, including education for parents					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Between April 1, 2020 and October 1, 2021 FNC staff will provide trauma-focused Child Parent Psychotherapy (CPP) for at least 20 dyads (children 0-5 and their caregiver)	Family Nurturing Center (FNC)	# of children participating in CPP at FNC	1. Two staff members and supervisor will attend 42 hours of CPP training in The Dalles	Between March 18, 2020 and October 1, 2021	# of staff attending training
			2. Two staff members and supervisor will participate in monthly consultation calls for 18 months	Between March 18, 2020 and October 1, 2021	# of staff participating in calls
			3. Two staff members and supervisor will attend weekly CPP reflective supervision.	Between March 18, 2020 and October 1, 2021	# of staff participating in weekly CPP supervision

			4. Inform community of availability of mental health services for infant and young children at FNC	Between March 18, 2020 and October 1, 2021	Number of community partners receiving information about availability of mental health services for infants and young children at FNC
Provide ongoing trainings in ACEs awareness, Self-Regulation & Resilience and related areas, as well as ongoing trauma-informed Professional Development trainings, parent education courses and events.	Southern Oregon Success/SOESD	Increase total number of persons trained by 6,000 for total over 21,000	1. Continue ongoing ACEs awareness trainings and Self-Regulation & Resilience workshops and, in partnership with SOELS, Strengthening Families trainings. Trainings and workshops no cost to hosting organizations or participants.	Monthly open ACEs trainings in Grants Pass and Medford; ACEs trainings, Self-Regulation workshops and other related trainings by request for schools, agencies, business organizations, parent education programs or community groups.	--By December 31, 2020, an additional 1,500 participants from baseline of 15,000. --By December 31, 2021, an additional 1,500 participants. By December 31, 2022, an additional 1,500 participants.

			2. SOESD Professional Development Trainings in trauma-informed Behavioral Health practices.	As scheduled by the SOESD Professional Development Work Group throughout the academic years of 2020-21, 2021-22 and 2022-23.
			3. "Resilience Awareness Month" Trainings & Events	<p>Participation by multiple partner organizations each year to offer full schedule of trainings, workshops and events in Jackson and Josephine counties. Target measure of reaching:</p> <p>--200 people in 2020</p>

					--250 people in 2021 --350 people in 2022
			4. Community Presentations on Regional Efforts on Trauma & Resilience	As scheduled with community groups and organizations through December 2022.	Minimum of 3 presentations per year to Rotaries, Chambers, School Boards, City Councils, etc.
Strategy 1.b: Promote and adopt trauma-informed policies and practices throughout the community					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Strategy 1.c: Build youth resilience skills					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Support families (parents and youth) by identifying lagging skillsets and referring to	Hearts With a Mission	Use internal hexagon to measure	1. Send an HWAM employee to DBT training	Feb 2020	Employee trained

appropriate interventions in or out of our program		outcomes; increase group attendance	2. Send HWAM employee to Parenting Class Facilitator Training	January 2020	Employee trained
			3. Launch internal DBT Program and internal/community 12-week Parenting Groups	May 2020	# of parenting groups; # of parents participating
			4. Continue with Adventure Therapy Program	Ongoing	
By March 2021 La Clinica will partner with schools in Jackson County to increase behavioral services to support youth in building resilience skills	La Clinica	Increase or add behavioral health services in schools in support of the Student Success Act	1. Identify schools interested in growing or adding behavioral health services	Apr 15, 2020	List of, # of schools approached
			2. Determine expansion and/or growth efforts and identify specific schools	June 1, 2020	# of signed contracts
			3. Establish schedule and timeline for implementation of services	June 15, 2020	Implementation timeline
			4. Offer services as agreed upon	Oct 1, 2020	Services offered
By June 2021 La Clinica will offer True Colors seminars to La Clinica patients and increase availability to all youth ages 14-18	La Clinica	Increase participation in, and availability of, True Colors seminars for youth ages 14-18	1. Identify opportunities for increased advertisement	May 1, 2020	# add'l advertising efforts
			2. Evaluate and refine payment	May 1, 2020	Payment model implemented to

			model and scholarship opportunities to support participation and reduce financial barriers		support those who may have financial barriers
Increase youth being served through Engage Our Youth program which works directly with youth in TANF and SNAP receiving families	DHS	Increase # of teen referrals to community partner organizations	Increase program visibility to front line staff, family coaches, and engagement specialists	Ongoing	# of teen referrals to community resource providers
Increase participation in Summer Youth Employment Program to give youth the experience of working, gaining occupational skills, and earning a paycheck	DHS	Increase # of TANF family youth participating in the program to 10 per quarter	Promote program with DHS Family Coaches and Engagement Specialists	Ongoing	# of youth referred to the program; # of youth participating in program

Goal 2: Decrease social isolation and loneliness in youth and older adults

Strategy 2.a: Build youth social skills

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Suicide prevention and Post-vention efforts	Jackson County Mental Health	Delivering Suicide Prevention curriculum to the community, both those that serve	1. Support and participate in the Jackson County Suicide Prevention Coalition	Monthly	Report on various efforts and campaigns through the coalition

		youth and youth themselves	2. Provide Youth Mental Health First Aid classes and ASIST	As requested	Minimum of 2 times each year
			3. Provide Suicide Prevention and Post-vention trainings and response	As requested and needed	Minimum of 6 per year
Strategy 2.b: Implement and expand mentoring and social connection programs					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
La Clinica will continue to offer and grow services for both youth and adults that promote wellness and connection	La Clinica	Wellness classes offered at each primary care site in La Clinica (one per month) and School-Based Health Center (one per semester)	1. Wellness Program will work with each primary care site to identify group offerings and provide organizational support in scheduling, advertising, tracking and gathering feedback	Ongoing and active	# of wellness classes offered per month/per site
			2. Establish schedule of program/class offerings and create monthly calendars for display in each	Ongoing and active	Schedule published on monthly calendars and posted in all waiting areas

			waiting area to increase awareness		
			3.Ensure classes are happening monthly at all 6 primary care sites and at least once per semester at SBHCs	September 2020	# of scheduled and completed classes each month by site
Strategy 2.c: Implement and expand community service programs and projects					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Develop mechanism for reporting out number of programs offered and community members engaged (class attendance or volunteers trained/retained)	OSU Extension Service	# of volunteers trained; # of youth enrolled in 4-H activities/clubs; # of program participants (adults, youth)	1. Meet with program staff to determine appropriate measures	June 2020	% of program staff met with
			2. Develop site-wide reporting tool for sharing out successes both internally and with <i>All in for Health</i>	Sept 2020	Reporting tool
Expand participation in Summer Youth Employment Program to give youth the experience of working, gaining occupational skills, and earning a paycheck	DHS	Increase # of TANF family youth participating in the program to 10 per quarter	Establish consistent processes between DHS and Lomakatsi Restoration Project	Ongoing	Documentation of agreements for referral and intake of youth

Goal 3: Equip our community with the knowledge, tools, and resources to empathetically accept and help individuals in need of behavioral health supports

Strategy 3.a: Disseminate information to health care providers, social service providers, and the general public on behavioral health conditions, appropriate approaches to interacting with and treating persons with behavioral health conditions, and available services

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Seek and collaborate with partner organizations to provide 2 educational presentations on mental health to communities of color by December 2020	SO Health-E (Southern Oregon Health Equity Coalition)	2 presentations in Spanish (one in Jackson and one in Josephine)	1. Seek input from community members in each county	Jan-Apr 2020	Identify priorities of target population regarding mental health
			2. Convene 20 community members for 2 separate presentations	By June 2020	# of presentations; # of community participants
			3. Gather feedback from community participants on presentations (knowledge, tools & resources)	After presentations	Feedback shared with partner organizations helps identify gaps in disseminating culturally appropriate education
Partner with two mental health partner organizations to support their adoption of equitable practices by offering cultural approaches to treating diverse populations	SO Health-E (Southern Oregon Health Equity Coalition)	2 organizations participate in SO Health-E to design equitable practices and services for their orgs	Identify and engage 2 mental health partner organizations	Feb 2020-June 2022	# of organizations participating in equity trainings & practices through 2022
Annually, through 2022, still will work with community partners to host at least one Community Mental	VA SORCC (Southern Oregon)	1 summit held each year	1. Form planning team	At least 3 months	Planning team members identified and meetings set

Health Summit focused on improving veteran and their families access to mental health care	Veterans Rehab Center & Clinics)			prior to summit	
			2. Planning team consults with at least 3 community partners and veteran stakeholders	By event date	# of community partners and veteran stakeholders included in planning
			3. Event will include at least 5 community presenters	By event date	# of community presenters
			4. Resource fair will feature at least 5 community services and 5 VA services	By event date	# of community and VA services featured
Promote Crisis Intervention Training (CIT) with law enforcement across Jackson County to increase appropriate approaches for response with persons with behavioral health conditions	Jackson County Mental Health	Continue to organize and provide CIT 40-hour trainings to law enforcement at a minimum of two times each year (or as needed)	1. Continue to meet and work with the CIT oversight committee to review and improve curriculum	Yearly	Updated manual and training materials available for review
			2. Provide a minimum of two CIT trainings each year	Twice a year or as requested	Training evaluations reviewed and suggestions considered
			3. Implement any requested tailored trainings as appropriate	As requested or needed	# of requests; # of participants
Create and disseminate a comprehensive and easy to use resource guide that is updated regularly	DHS	# of resource guides printed; # of resource guides distributed	1. Create guides	Ongoing	# of guides printed
			2. Mail guides	Quarterly	# of guides mailed

Strategy 3.b: Increase the number, frequency, visibility, and reach of evidence-based behavioral health trainings					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Develop a comprehensive overview of SOESD Behavior Health Services and a schedule of evidence-based behavioral health trainings for K12 school districts and community partners.	SOESD	By June 30, SOESD will have a comprehensive overview of SOESD Behavior Health Services and a schedule for 2020-21 of evidence-based behavioral health trainings for K12 school districts and community partners	1. SOESD Professional Development Work Group develops schedule of Behavioral Health trainings for school districts and community partners for summer and fall.	April 1, 2020	Plan developed and distributed to K12 school districts by SOESD; plan distributed to community partners by Southern Oregon Success.
			2. SOESD Local Service Plan is completed and made available, including offerings for school districts in Special Education, Behavioral Health and other student support services.	By May 1, 2020	SOESD completes established process for development of Local Service Plan
			3. SOESD Student Success Support Plan completed and made available to specify specific offerings in Behavioral Health and student support to meet goals set out in the Student Success Act.	By June 15, 2020	All regional school districts will submit their Student Success Act plans and investments to the Oregon Department of Education by April 15. SOESD is in continuous communication with local school districts and will develop its plan to support the school districts' plans, work with the districts to approve the SOESD plan, then submit approved plan to ODE.

			4. SOESD Professional Development Work Group drafts schedule for regional behavioral health trainings for K12 and community partners for full year of 2020-21	By August 1, 2020	Professional Development Work Group holds meetings as needed, works via email as needed, to draft proposed schedule.
			5. SOESD updates information with CHIP work groups and Southern Oregon Success Innovation Network for alignment and coordination.	By June 30, 2020	Southern Oregon Success works with SOESD to develop communication plan for presenting information to CHIP work groups and SORS Innovation Network convening.
Throughout 2020, promote offer and provide Mental Health First Aid classes in partnership with United Way of Jackson County and the Medford Chamber of Commerce to all downtown businesses	Jackson County Mental Health	Mental Health First Aid trainings provided to downtown businesses in the city of Medford during 2020	1. Promote business participation along with the Chamber of Commerce	At least monthly	# of participating businesses
			2. Provide training for businesses that have enough employees to support their own training	As number of trained staff allows	# of individuals trained
			3. Support and pay for additional people to attend training for trainers	As available	# trainers in the county by end of 2020
By July 2021, Options will work to expand their Mental Health First Aid (MHFA) program throughout Josephine County by increasing both	Options for Southern Oregon	Number of MHFA trainings per module	1. Complete Blended/Virtual training for Adult and Youth modules	July 2020- August 2020	# of instructors certified to offer blended/virtual MHFA

the number of trainings and the variety of training modules. Trainings may be in-person, virtual, or with blended instruction.			2.Get new instructor trained in youth MHFA	August 2020	Successful completion
			3.Outreach to Turning Point School	Aug – Oct 2020	Successful contact with school
			4.Schedule Fall MHFA trainings for Adult and Youth modules	Aug – Nov 2020	1 Adult and 1 Youth training scheduled
			5.Complete Fall trainings	Sept – Dec 2020	1 Adult and 1 Youth training completed
			6.Instructors trained in Teen MHFA	Oct 2020	# of instructors trained
			7. Hold at least one Teen MHFA at Turning Point school during the 2020-2021 school year	Nov 2020 – June 2022	# of trainings held; # of students trained
			8.Schedule Spring Trainings	Dec 2020 – Feb 2021	2 Adult and 1 Youth training scheduled
			9.Complete Spring MHFA Trainings	Feb 2021 – May 2021	2 Adult and 1 Youth training completed
			10.Outreach to add'l high schools	Jan – July 2021	# of schools contacted
			11.Schedule Summer MHFA Trainings	Apr – May 2021	2 Adult and 1 Youth training scheduled
			12.Complete Summer MHFA trainings	May – July 2021	2 Adult and 1 Youth training completed
	Strategy 3.c: Promote the use of 211 and ensure behavioral health system organizations keep 211 information up-to-date				

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Update 211 with info from DHS Resource Guide	DHS	# updates completed annually	1.Send updates to 211	Quarterly	# of updates sent

Goal 4: Prevent use and misuse of substances

Strategy 4.a: Promote policies that advance substance-free social norms and reduce youth access to substances, such as restricting advertising, reducing retail outlet density, and promoting retail licensing

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure

Strategy 4.b: Implement programs and initiatives to prevent substance use during pregnancy

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
By Sept 1, 2020, pregnant AllCare members who attend Substance Use Disorder (SUD) treatment will receive vouchers for their attendance that can be used at AllCare's BABE	AllCare Health	# of vouchers redeemed by members who attended SUD treatment appts.	1. Educate providers on standards of voucher program	By Sept 1, 2020	Standards on what constitutes voucher awards will be shared with provider network

store to purchase infant and toddler health and wellness items			2. Identify pregnant members who are participating in SUD	By Sept 1, 2020	# of members participating
			3. Document # of vouchers used/when	By Sept 1, 2020	# of vouchers collected
			4. Catalogue which programs vouchers are coming from	By Sept 1, 2020	# of vouchers used for each program
By June of 2020 La Clinica's Women's Health Center will offer Medication Assisted Treatment (MAT) services to pregnant women with Opioid Use Disorder during their prenatal care and help patients establish with ongoing primary care prior to delivering their baby	La Clinica	% of pregnant women with Opioid Use Disorder who are offered MAT services during their prenatal care; % of MAT eligible pregnant patients who accept services	1. Identify providers at Women's Health Center (WHC) willing/able to be X-waivered to prescribe Suboxone	February 2020	# of providers identified and waived
			2. Train Behavioral Health Clinician at WHC on the intake process and resources in the community available to support this population	March 2020	# of Behavioral Health staff trained
			3. Develop workflows for WHC providers to start and manage ongoing MAT needs during patient's pregnancy	Apr 2020	# of providers who have adapted workflows to start and manage MAT
			4. Develop workflow for ensuring patients are established with a primary care	Apr 2020	# of patients established with primary care provider before birth of baby

			provider prior to giving birth		
Strategy 4.c: Build youth self-regulation skills					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
By March 2021 La Clinica will partner with schools in Jackson County to implement mindfulness programs to support youth in building resilience skills	La Clinica	# of schools implementing mindfulness programs	1. Identify schools interested in engaging in mindfulness programs	Apr 15, 2020	List of potential schools
			2. Determine which schools to engage in programs	May 15, 2020	# of schools selected
			3. Establish schedule of program/class offerings in schools	June 15, 2020	Schedule agreed upon by schools and La Clinica
			4. Offer program/classes	Oct 1, 2020	# of completed classes by school
Strategy 4.d: Provide education and disseminate information on risks associated with use and misuse of substances					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Strategy 4.e: Educate providers on safe prescribing practices and promote safe prescribing policies					

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Supports and encourages its providers to be X-waivered to offer medication assisted treatment when indicated, and to refer patients to specialty substance use treatment programs when indicated.	La Clinica	Support providers to complete required training to become X-waivered and will support educational efforts to ensure providers and integrated behavioral health team members understand and are able to effectively support and refer patients needs substance use care.	1. MAT Learning Collaborative Ongoing participation both in facilitating and participating as learners.	Ongoing	Attendance at MAT learning collaborative
			2. Mentor support for new providers at la Clinica starting to provide MAT services	Ongoing	New providers connected with mentors at their request
			3. Development of policy on MAT services within La Clinica and acuity risk tool to help offer clinical guidelines to providers offering MAT services	Ongoing	Document workflows and finalize policy

Goal 5: Reduce harm associated with mental health and substance use through use of community-wide approaches

Strategy 5.a: Increase awareness and access to Narcan, including increasing awareness of the Good Samaritan Law as it relates to overdose

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
---------------------------------	----------------------------------	--	---------------------	-------------	--

Offer Narcan on the Mobile Health Center to increase access to hard to reach populations.	La Clinica	Able to access low cost Narcan to have available on the Mobile Health Center.	1. Establish a budget for Narcan to be dispensed on mobile health center	4/30/20	Budget established
			2. Provide staff training on dispensing Narcan	5/30/20	Training logs
			3. Begin dispensing Narcan on the mobile health center at all community sites	6/30/20	Count of Narcan dispensed via dispense log
Increase community access to Narcan	Josephine County Public Health	100% of those entering corrections will be trained for, and offer, Narcan upon release	1. Get MOU signed between PH and HIVA	Feb 2020	Signed MOU
			2. Get Narcan training onto jail kiosks	Mar 2020	% of inmates trained
Strategy 5.b: Utilize and promote evidence-based practices aimed at suicide prevention and postvention					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Suicide Prevention and Post-vention for youth	Jackson County Mental Health	Delivering Suicide Prevention curriculum to the community, both those that serve youth and youth themselves	1. Support and participate in the Jackson County Suicide Prevention Coalition	Monthly	Report on various efforts and campaigns through the coalition
			2. Provide Youth Mental Health First Aid classes and ASIST	As requested	Minimum of 2 times each year

			3. Provide Suicide Prevention and Post-vention trainings and response	As requested and needed	Minimum of 6 per year
Promote Suicide Prevention and Post-vention for all ages	Jackson County Mental Health	Delivering Suicide Prevention curriculum to the community	1. Support and participate in the Jackson County Suicide Prevention Coalition	Monthly	Report on various efforts and campaigns through the coalition
			2. Provide and promote ASIST, QPR, CALM, Connections, and SOS training	As requested	Minimum of 2 times per year
			3. Development of a county suicide fatality review committee to look for patterns and trends, to further prevention	By July 2020	Be able to report out on the demographics and numbers of those individuals in Jackson County who died by suicide
Strategy 5.c: Increase access to clean injection supplies and syringe services programs for people who inject drugs					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Offer Mobile Health Center medical services to people who come to Jackson County Health and Human Services for the syringe exchange program.	La Clinica	Regularly scheduled hours to support the syringe exchange program	1. Develop MOU with Jackson County Health & Human Services	March 2020	Completed MOU
			2. Offer medical services in support of syringe	April 2020	Number of patients seen at Jackson County HHS site

			exchange program		

Goal 6: Ensure access and coordination of care for people impacted by mental health and substance use disorders

Strategy 6.a: Expand patient information sharing between providers

Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Increase OHP enrollment at corrections for males	Josephine County Public Health	% of males entering corrections enrolled in OHP upon release	1. Identify potential enrollers at UCAN	2/2020	# of potential enrollers identified
			2. Meet with jail and UCAN reps for planning	3/2020	n/a
			3. Begin enrollments of the male inmates	4/2020	% of males entering corrections enrolled in OHP upon release
Birch Grove will offer comprehensive primary care, MAT and specialty psychiatry services to a high-needs population through coordination with community partners.	La Clinica	Increase staffing with capacity offer these services.	1. Establish agreements and MOUs as needed with appropriate community partners.	4/30/20	Formal agreements completed
			2. Collaborate with community partners to document	8/1/20	Documented workflow to support pathways

			pathways into care		
			3. Recruit additional provider for Birch Grove	10/30/20	Additional provider at Birch Grove
Strategy 6.b: Promote development and implementation of standardized community protocols and practice standards for mental health and substance use disorders					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
By September 1st 2020, all AllCare members discharged from acute care psychiatric hospitals will have linkage to timely, appropriate behavioral health and primary health care in the community prior to discharge, and that all such linkages will be documented in the hospital record.	AllCare Health CCO	% documentation of 'warm hand-offs'	1. Educate providers on Standards of 'warm handoff' procedures	Currently-March 1, 2021	We have developed standards that will be shared with provider network
			2. Identify those admitted to acute care psychiatric care via electronic health record	Currently-March 1, 2021	# of individuals admitted
			3. Notify appropriate providers of admission	Currently-March 1, 2021	# of reports made to providers
			4. Confirm that 'warm hand-off' occurred	Currently-March 1, 2021	Report % of documented 'warm hand-offs' that occurred
Continue opportunities for learning and management of Medication Assisted Treatment (MAT)	Jackson County Mental Health	Increase the knowledge among providers of Medication	1. Host and support the meeting of the Journal Club	Monthly	# of participants and range of specialty

		Assisted Treatment (MAT) and the community at large of safe practices and greater understanding of the management and risk of this population	with Dr. John Mahan, as facilitator and expert		
			2. Support efforts of increasing those MAT providers in the community through consultation and assistance	As requested	# of requests
			3. Work with individuals through the HHS syringe exchange as wanting to participate in the "Bridge Clinic" offered through JCMH	As requested, and as needed	# of individuals identified through syringe exchange program that participate in "Bridge Clinic"
Obtain CARF (Commission on Accreditation of Rehabilitation Facilities) accreditation to certify highest standards of care for our clients	OnTrack Rogue Valley	Receive CARF accreditation	1. Make necessary internal improvements to our business/clinical processes	Ongoing	Meet CARF application guidelines
			2. Schedule CARF evaluation committee visit	Schedule visit for Nov 2020	
Continue opportunities for learning and management of Medication Assisted Treatment (MAT)	Jackson County Mental Health	Increase knowledge among providers of MAT and the community	1. Host and support the meeting of the Journal Club with Dr. John Mahan	Monthly	# of participants and the range of specialty

		at large of safe practices; improve understanding of the management of risk for this population	2. Support efforts of increasing those MAT providers in the community through consultation and assistance	As requested	# of requests for consultation
			3. Work with individuals that self-identify through the HHS Syringe Exchange as wanting to participate in the "Bridge Clinic"	As requested and needed	# of individuals identified through Syringe Exchange that participate in Bridge Clinic
Strategy 6.c: Increase behavioral health pre-treatment/pre-recovery programs					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Increase the number of people who have access to mental health care appointments and treatment	Asante	Increase # of people accessing mental health services	1. LCSWs embedded in APP primary care clinics	2020 & beyond	Applicants screened and hired
			2. Expand the Behavioral Health Unit from 18 to 24 beds	2020	Construction completed by May 2020
			3. Add a room in the ARRCM psychiatric crisis	2020	Completed

			unit in the emergency dept for all ages, including young children and teens		
Strategy 6.d: Expand behavioral health peer support programs					
Organizational Objective	Agency/ Collaborative	Objective Process Measure (Outcome)	Action Steps	When	Action Step Process Measure
Increase pre-engagement, mobile response peer services (# of services where encounter occurs outside of the office)	Addictions Recovery Center	Number of off-site, pre-engagement peer services	1. Identify partners and funding opportunities	Jan-Apr 2020	# of partners and funding opportunities
			2. Create tracking mechanism	Jan-Apr 2020	Tracking mechanism created
			3. Recruit and hire	Jan 2020 – ongoing	# of hires
			4. Present to partners	Mar 2020 – ongoing	# of presentations
Birch Grove will offer a weekly support group for patients impacted by mental health and substance use disorders to include peer support, an art project, and 1:1 check-ins with clinicians.	La Clinica	Regularly scheduled support groups at Birch Grove Health Center	1. Establish weekly schedule for classes	2/1/20	Schedule available for staff and patients
			2. Promote weekly classes and conduct outreach to potentially interested patients	3/1/20	Patient outreach conducted. Informational flyers available

			3. Offer weekly support group	4/1/20	# of patients participating each week
